EXPERIENCE

UX Engineer Intern at Salesforce

San Francisco, CA | May 2016 - August 2016

- Identified pain points in IoT Cloud's expression writing experience
- Designed improved expression writing UX through iterations of wireframing, prototyping and usability testing
- Developed reusable expression pill input component using **React**

Software Development Intern at Concur

Bellevue, WA | January 2016 - April 2016

- Built 2 **React**, **Redux** prototypes on the Concur Labs team:
 - A personal card expense app that uses Concur and Plaid's API's
 - A Microsoft Outlook Add-in for expensing email receipts

Software Engineer Intern at Compass

New York, NY | January 2015 - August 2015

- Increased analytics coverage in **iOS** apps by 90%
- Fixed bugs and developed new features in **iOS** apps (**Objective-C**)
- Worked on team of 6 to build an **AngularJS** flyer creation tool for real estate agents saving them 1-2 hours of time spent on marketing

Software Development Intern at Philips

Andover, MA | May 2014 - August 2014

- Integrated 4 types of gesture recognition in Ultrasound UI using **C#**
- Refactored **WPF** gesture recognition library & implemented inertia

PROJECTS

Bloxeo

- Worked on developing the **React**, **Flux** front-end of a real-time collaboration app on a team of 13 developers and 6 designers.

Synonymy

- Developed a fun **iOS** application written in **Objective-C** that helps users rephrase sentences by swapping words with their synonyms.
